

What does 'internationalisation' mean?

Student perspective on extra-territorial
diversification of education.

26th of March 2014, Warsaw

Internationalisation is a chance for acquiring intercultural competence and understanding, as well as democracy and language skills; both skills needed in the globalised world and the key for development of a society where everyone can live together peacefully.

ESU's policy paper on internationalisation of higher education

Internationalisation has become a must in every higher education institution across the globe.
